Memorandum

To:

From: Commodity Specialist, Branch of Rare and Precious Metals

Subject: Release of unclassified technical information to the
Bureau of Mines

The unclassified rough drafts and technical information in these reports would be of value to the Bureau of Mines. The material is now in storage. The author is deceased. The subject matter which the Bureau of Mines would consider of value is that which pertains to the Hungarian bauxite, alumina, and aluminum industries.

If this technical information can be made available to the Bureau of Mines it should be sent to Ray A. Heindl, Assistant Chief, Branch of Light Metals, Bureau of Mines, Department of the Interior, Room 3413, Interior Building, Washington 25, D. C.
